

Forum

design: Johnny Sørensen

Forum er en serie lette, behagelige møbeltyper, med eller uden armlæn. Velegnet til brug i receptioner, lobby, foyer, vente- og hvilerum m.m. – kort sagt steder, hvor kunden/brugeren oplever det første vigtige og afgørende indtryk af rummet eller firmaets identitet og design.

Møbeltypernes konstruktive idé med de polstrede "skaller" hvilende klart adskilt på det spændstige understel giver en sikker fornemmelse af både styrke og lethed.

Forum-elementerne uden armlæn kan sammenkobles i forskellige længder og formationer via koblingsbeslag eller mellemlade eller kan bruges som enkeltmøbler i ethvert ...forum.

Leveres i bøg, eg, ahorn og kirsebær eller sortmalet m/Soft touch effekt – understel i pulverlakeret stål-rør eller krombehandlet. Til serien hører en taburet/fodskammel samt en serie lave borde i forskellige former og størrelser og bordpladeudførelser, bl. a. et elegant lille glasbord, Ø 47 x h 60 cm.

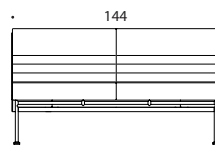

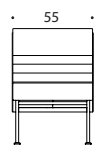

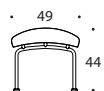

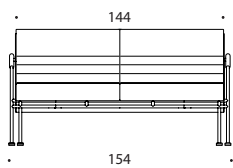

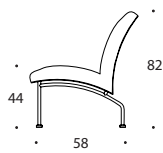

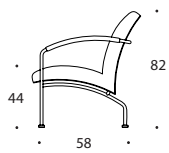

Forum is a series of light, comfortable furniture with or without arm rests, suitable for use in receptions, lobbies, foyers, waiting and resting areas etc. – in short, places where the client/user experiences the first and crucial impression of the room or the company's identity and design.

The constructive idea of the furniture: the upholstered "shells"; resting clearly separated on the resilient base – gives you a secure feeling of both strength and lightness.

The Forum-elements may be linked in various lengths and formations through linking devices or an intermediate table top or may be used as single pieces of furniture in any.....forum.

Available in beech, oak, maple and cherry or painted black w/Soft touch effect – the base in lacquered tubular steel or chrome-plated. Forum also includes a stool/foot stool and a series of low tables in various shapes and sizes, i.a. an elegant small glass table Ø 47 x h 60 cm.
