Mix er et enkelt, let og robust bord, uden sarg, der fås i et utal af variationer. Bordpladerne er således tilgængelige i både kvadratiske, rektangulære, cirkulære og buede former, og da de ved hjælp koblingsbeslag kan sammenstilles i større opstillinger af borde eller skiftevis borde og tillægsplader, tilgodeser bordene de fleste indretningsbehov. Samtidig findes der i Mix-serien flere forskellige understel i træ og stål, og nu også foldeben.

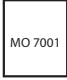

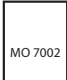

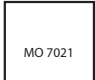

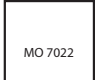

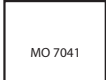

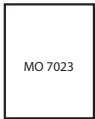

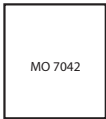

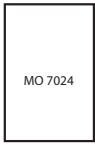

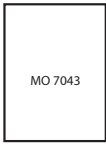

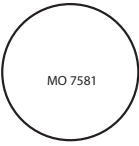

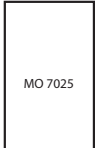

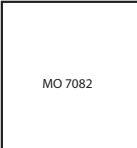

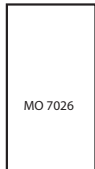

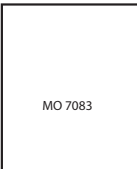

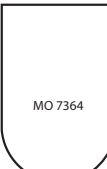

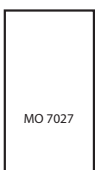

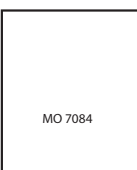

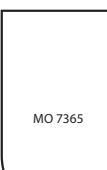

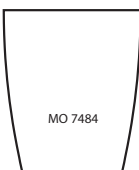

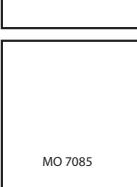

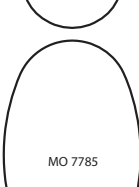

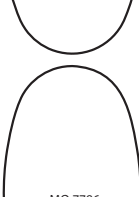

Mix is a simple, strong light-weight table, without rails, available in a vast number of variations. The table tops are available in both square, rectangular, circular and curved forms and as they may be linked in larger compositions of tables or tables and intermediate leaves alternately, the tables meet most demands. Furthermore the Mix-series is available with several different bases in wood and steel and now with folding legs as well.
